THIS STARTLING PICTURE is the result of study by the National Chamber's Government Economy Program, based on figures from the U.S. Department of Commerce. Incomes of all people include all money that goes to individuals as wages, salaries, interest, rent, and dividends. Since latest Commerce Department Sgures available for the map were for 1950, the Chamber estimated total 1953 incomes at 15 per cent higher; than those for 1950. Total 1953 spending under the President's budget would equal the incomes of all persons west of the Mississippi plus 96 per cent of the incomes in Wisconsin and all the incomes in Mississippi.
